¹ Earnings on non-qualified withdrawals may be subject to federal income tax and a 10% federal penalty tax, as well as state and local income taxes. Federal law allows distributions for tuition expenses in connection with enrollment or attendance at an elementary or secondary public, private or religious school (“K-12 Tuition Expenses”) of up to \$10,000 per beneficiary per year. Under New York State law, distributions for K-12 Tuition Expenses will be considered non-qualified withdrawals and will require the recapture of any New York State tax benefits that have accrued on contributions.

² A plan of regular investment cannot ensure a profit or protect against a loss in a declining market.

³ Account owners who are New York taxpayers can deduct up to \$5,000 in contributions from their state income taxes each year (\$10,000 if married filing jointly). Deductions may be subject to recapture in certain circumstances, such as rollovers to another state's plan or New York non-qualified withdrawals.
